Spécialité: informatique

Collège : Sciences de la Modélisation et de l'Information

Membre associé
(nommé en 2006)

Erik Sandewall is professor of computer science at Linköping University, Sweden, since 1975.

His research activities are in two areas: first, artificial intelligence methods for cognitive robotics and their use in systems for human-computer and human-robot interaction and, secondly, new methods for communication of scientific results, including electronic publication.

Erik Sandewall is the director of WITAS, the Wallenberg Laboratory for Information Technology and Autonomous Systems. He is also Co-Editor-in-Chief (together with Ray Perrault) of the Artificial Intelligence Journal, General Editor of the Electronic Transactions on Artificial Intelligence, and Director of Linköping University Electronic Press
